Word Mining

The idea is to make as many common words as you can from the phrase below.
This is good spelling practice for young children.

Rules:

- Words that are names are not allowed (names like Sally or Henry)
- Words that require punctuation are not allowed (ex: can't, don't)
- To make word mining more challenging, you can also disallow 1 & 2 letter words. However, if you're doing this with young children we recommend allowing the children to form words with as many letters as they like
